I bought these on a whim when I had been at ulta, and after I bought one I bought them all! The colour pay away is incredible.. Plz lead with the listing by publishing a comment with any dupe you know!. These lippies do not get enough attention In today's beauty entire world we focus on lippies that have got a strong brand name, however we fail to understand that lipsticks like these possess just as much coloring and lasting power.. I realized making a article for each lipstick with the dupés plus the images will consider a LONG time so I decided to create a checklist! (I will end up being upgrading this checklist when ever I find more dupes) Also some of these are discontinued therefore if you liked a item which is discontinued right here will be the dupe.
